The conference fees can be paid at the registration desk upon arrival. All major currencies will be accepted, as well EC, traveler or personal cheques. Credit cards cannot be accepted by the Organizing Committee.

## 5. Preliminary calendar of sessions

The enclosed table shows the preliminary calendar of sessions. The final and detailed program will be available at the beginning of the Meeting.

## 6. Instructions to contributors

We do not plan to have a xerocopying service on site, contributions will be timely made available on the WEB via electronic scan of the transparencies. We guarantee a quality at least analogous to xerocopying (i. e. black and white).

Contributors are strongly recommended to provide an electronic copy of their talk in a portable format (e. g. PostScript, Power Point or PDF). In this case we will publish on the web the version in full rather than a scan of the transparencies. Files can be provided via diskette (in which case we accept either MS-DOS or MacIntosh format), or via the internet as files obtainable by FTP copying.

## 7. Proceedings

The Proceedings of the Conference are foreseen to be published on a special issue of Nuclear Physics B - Proceedings Supplements.

The length of the contribution for final publication is (including title page and figures) 4 pages for oral contributions.

Final papers must be submitted in both electronic format (via email) and hardcopy. Figures should be sent separately (in the hardcopy version).

**As it is strongly requested by the scientific community that Proceedings appear within few months from the end of the meeting, manuscripts, upon agreement with the Publisher, have to be provided before leaving the conference. The deadline is therefore May 19<sup>th</sup> 2002.**
